KLINKER ITALIA MILAN SERIE
LINEA FLAT e LINEA SHAPE

KLINKER ITALIA presents a new generation of ceramic facade profiles – slender, precise, and highly versatile.

These brick-slips combine the timeless elegance of traditional clinker facades with the clean lines of modern ventilated exterior walls.

With the **LINEA FLAT** and **LINEA SHAPE** ranges, KLINKER ITALIA offers a thoughtfully designed system for architects and planners. The system embodies exceptional design flexibility and the proven quality of ceramic surfaces—perfect for modern facades, sophisticated interiors, and precise architectural accents.

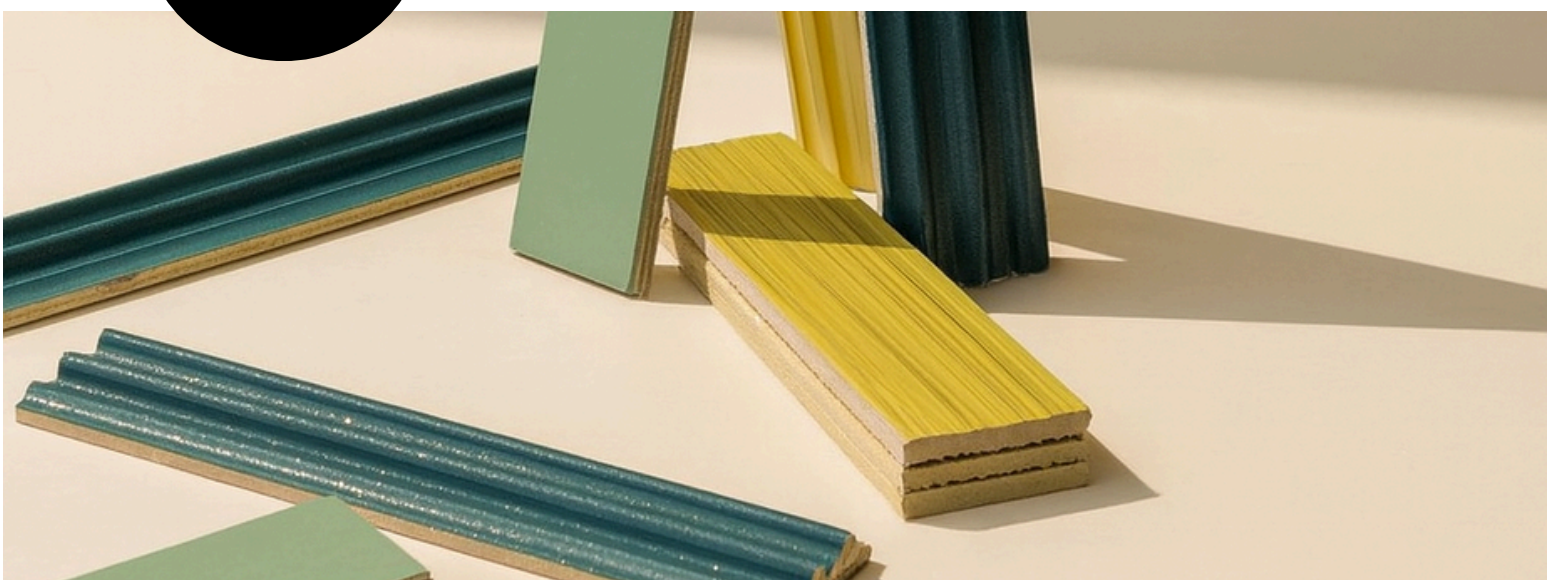
CHOICE OF FORMATS



FORM MEETS FUNCTION

With **KLINKER** ITALIA, you have the freedom to craft ceramic brick slips exactly as you imagine them. If the design you want doesn't exist, we'll make it a reality.

Your vision for the facade guides the way – we provide the expertise and possibilities to bring it to life.

Where technical precision meets creative freedom, standard and custom formats come directly from the manufacturer. Give your facade the shape it truly deserves.

CREATIVE DESIGN, STRONG CERAMICS

The low-porosity material is ideal for durable facades while also allowing for individualized design in both residential and commercial buildings.

BUILT TO LAST, EASY TO MAINTAIN

Ceramic facades are designed to withstand the elements, maintaining their flawless appearance over time with minimal upkeep.

ENERGY-EFFICIENT FACADE SOLUTION

TONWERK LINEA is not just an aesthetic facade cladding—it also contributes to the building's energy efficiency and thermal insulation.

STANDARD SELECTION, UNLIMITED OPTIONS

- The shaped tiles featured in this series make up our standard range, available in heights of **52 mm and 71 mm**. Upon request,custom formats and shapes of up to 115 mm can also be produced – tailored to your project and specific construction requirements.
- We offer complete freedom in colour: Shades can be selected according to NCS or RAL and implemented on a project-specific basis,allowing facades and interiors to be perfectly tailored to your design concept.

YOUR FORMAT, YOUR WAY!
